DETAILED ACTION

This Office action is in response to applicant's appeal brief filed on 07 May 2007.

Response to Arguments

1. Applicant's arguments, see pages 3-5 in the appeal brief filed on 07 May 2007, with respect to claims 12-22 have been fully considered and are persuasive. It is agreed that Fig. 39 of Thompson is relevant to L₂MX complexes only, and that the prior art relied upon, including Thompson, lacks a teaching or suggestion to use the arylquinoline ligand of Thompson in a L₃M complex. Accordingly, the prior art rejections of claims 12-22 have been withdrawn.

Allowable Subject Matter

- 2. Claims 12-22 are allowed.
- 3. The following is an examiner's statement of reasons for allowance:

Application/Control Number: 10/696,349

Art Unit: 2813

 Claims 12-20 are allowed because the prior art of record does not teach or suggest an iridium compound featuring an L₃M structure that utilizes the fluorine substituted phenylquinoline ligands as specifically claimed in claims 12-17; and

Page 3

Claims 21-22 are allowed because the prior art of record does not teach or suggest, in combination with the other claim limitations, an organic electronic device that includes an emitting layer with an emission maximum ranging from 570 to 700 nm, wherein at least 20 % by weight of the emitting layer includes at least one iridium compound with the third formula as claimed in claim 21, and wherein the ligands are fluorine substituted and have the structure (XI) and/or the structure (XII) as claimed in claim 21.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen W. Smoot whose telephone number is 571-272-1698. The examiner can normally be reached on Monday to Friday from 8:00am to 4:30pm.

Art Unit: 2813

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Carl Whitehead, Jr. can be reached on 571-272-1702. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
